

Recycling Facts and Tips

Garbage Pizza

How Long Does It Take?

“Decompose: To Break Down”

Paper.....	1 Month
Tin Can.....	100 Years
Aluminum Can.....	500 Years
Glass Bottle.....	500 Years or more
Plastic Milk Jugs.....	NEVER

Freddy’s on the Web!

www.springfieldmo.gov/recycling

The popular activity guide “It is Easy Being Green” presented by the City of Springfield Solid Waste Management Division is now available on the City’s Website.

Benefits of Recycling

- ♻ Reduces your Trash
- ♻ Saves Natural Resources
- ♻ Extends the Life of our Landfill
- ♻ Saves Energy
- ♻ Reduces Pollution
- ♻ Reduces Litter

Plastic Recycling

Plastic Products have numbers in the recycling symbols that tell you what type of plastic the product is. The smaller the number, the easier it is to recycle. This means that it can be made into new products easier.

(The numbers are imprinted on the bottom of the plastic containers—look for the number inside the little recycling **triangle** logo.)

In Springfield, the City-Operated Recycling Centers accept the full range of plastics, #1--#7, with these exceptions:

Disposable dishes (knives, plates, etc.)

Other plastic items, such as pipe, siding, plastic wrap, plastic bags, wading pools, etc.

***Styrofoam, Plastic Bags** (consult the “Guide to Recycling in Springfield” brochure—there are several places that take these items)

****“Take-Out Containers”**—deli/fast food/salad bar plastic bowls, etc. If these are clean, they can go to the **Etc. Center**
(See “Guide to Recycling in Springfield”)
